

The Senior Citizen Patriots of America

4 hrs · ⚙️

When public events and venues, especially sports and other entertainment venues, choose to eliminate the playing and or singing of our National Anthem and a salute to our flag by their audience, it is an act against American values and culture. These events and venues are directly betraying their own country which, by definition, is an act of TREASON. The American people need to hold these events and venues accountable for their despicable decisions by reporting them to the FBI.
